Eurofonprofit PLUS

a sub-fund of Eurofonprofit (ISIN: LU0087897467)

The independent Management Company for the Sub-fund is FundRock Management Company S.A.

Objectives and Investment Policy

- The objective of the Sub-fund is to achieve capital growth by investing in a broadly diversified portfolio of equity and fixed income securities.
- The percentage of the net assets invested in fixed income securities and/or equity securities can vary according to general market fluctuations.
- At the time of purchase all debt securities shall be rated at least Investment Grade (“BBB-“ by Standard and Poor’s Corporation or an equivalent rating agency) or, if not rated, issued by an entity having an outstanding debt issue so rated or which will be deemed by the Investment Manager to be equivalent to securities with this rating. Exceptionally, the Sub-Fund may invest up to 20% of its Net Assets in debt securities with a rating below Investment Grade at the time of purchase.
- The equity securities in which the Sub-fund will invest are primarily those of large and medium sized companies listed on official Stock Exchanges in Japan, in the Americas, in Central and Western Europe and in the Far East.
- The Sub-fund may use financial derivative instruments for efficient portfolio management or hedging purposes, including currency risk hedging. It may also invest in structured products.
- The Sub-fund does not distribute a dividend and all income arising from the Sub-fund is reinvested.
- The minimum initial and subsequent investment in the shares of this Sub-Fund amounts to 500 euros or its equivalent in US dollars. The minimum holding requirement per shareholder is 500 euros.
- The price of the Sub-fund is calculated on a weekly basis, each Tuesday (“Valuation day”). If such Tuesday is not a bank business day in Luxembourg, the net asset value is calculated on the following bank business day in Luxembourg.
- Investors may redeem shares of the Sub-fund by sending a written request, either to the Nominee or directly to the Registrar Agent in Luxembourg, before 16:30 (Luxembourg time) of the business day immediately preceding a Valuation day.
- Recommendation: the Sub-fund may not be appropriate for investors who plan to withdraw their money within 3-4 years. The Sub-fund is appropriate for investors with high tolerance for risk.

Risk and Reward Profile

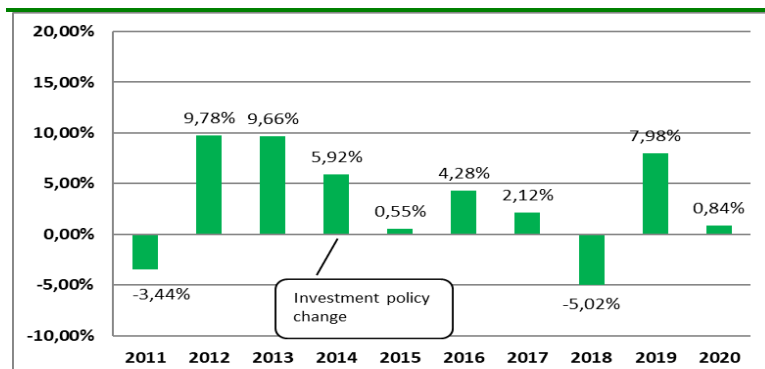

- Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Share Class.
- The risk category shown is not a target or a guarantee and may change over time.
- The lowest risk category does not mean a risk-free investment.
- The indicator is affected by various factors, including:
 - The Sub-fund offers no capital guarantee or asset protection measures.
 - The Sub-fund uses listed derivatives.
- The Share class also bears the following risks that are not explained by the synthetic risk indicator:
 - Credit Risk. Receiving income due from debt instruments is dependent upon the issuer’s ability to pay. This risk is limited due to the Sub-fund investing mainly in bonds rated “BBB-” or above.
 - Derivative risk: derivative values can rise and fall at a greater rate than equities and debt instruments.
 - Currency risk: the Sub-fund can be affected by changes in currency exchange rates. This risk is partially reduced by the use of hedging
- At this time, the current risk and reward profile is a result of the high volatility experienced during the current crisis in the main markets (equity, bond and currency markets) to which the Sub-fund has exposure.
